

How many 3-point baskets can you make out of 20 attempts?

Equipment Needed:

- One basketball or other similar ball (if basketball not available).
- 3.05-meter (10') regulation basket with backboard.
- Chalk, floor tape or other way to mark three-point line (if not already marked). The 3-point arc is 6.02m (19 ft 9in) measured from the ground directly under the *center of the basket in all directions*.
- Measuring tape to measure distance for 3-point arc (if not already marked). You can also take 6 large steps.

Rules:

- Player takes 20 attempts from anywhere behind the 3-point line. Player can select different spots during 20 attempts.

Scoring:

- For every 3-point field goal made, 3 points are awarded.
- For every 3-point attempt that hits the rim, 1 point is awarded.
- If the ball fails to touch the rim or go into the basket, 0 points are awarded.
- The player's total score will be the sum of the points from all 20 shots. Maximum total score = 60 points.

Modifications:

- for youth division (age 8-15) competitions or for athletes in a wheelchair, a 2.44-meter (8') basket may be used as an alternative).
- Please indicate use of 8' basket when entering scores.
